FORECASTING

- Throughout the year track against budget and prepare forecasts against budget to monitor and anticipate financial outcomes during the course of the year
- Report regularly to the Board/Licensee in a proactive way
- Translate the finances into the expected financial performance/story of the organization

FORECASTING

- Be conservative/realistic on revenue and include contingencies for expenses
- Plan for low cash points, communicate proactively with your board, donors, underwriters, employees and vendors
- Think of areas that may experience growth/or provide opportunity to attract new or different sources of revenue

FORECASTING/MANAGING CASH FLOW

Focus on access to cash

- Existing lines of credit
- Existing credit cards
- Endowments that are board designated
- Timing of grants

General Approach

- Overall status as of the date of the financials cash, revenue, expenses, net asset positions
- Revenue and Support synopsis highlight key aspects
- Expense synopsis highlight key aspects
- Looking ahead what is being forecasted for the year over or under budget, more or less cash than expected, etc.

- Find the right balance between too much and too little
- Use a consistent reporting style. Supplement at various times
- Use a dashboard for KPIs if it would be helpful
- Avoid providing financials or reports without some form of narrative to set context. Work with your CFO/Finance Committee/Board Treasurer.

- Think about the overall story: "what happened?", "what does it mean?", "what's next?". Be transparent
- Tie back to the goals for the year
- Go beyond the numbers, focus on the insights, achievements, areas of concern etc.
- Anticipate activities and avoid 'bad' surprises
- Be visual
 - charts or graphs showing % of income from main sources

Examples

- At March 31st we had \$700,000 in cash, representing approx. 3 months of operating reserves.
- The Decrease in Net Assets is expected because three pledge drives happen in the second half of the year and the CPB grant is awarded in November.
- During the past six months changes have taken place in the membership department including the hiring of a new Membership Director, and a change in the software we are using.
- YTD Expenses across all categories are all less than budgeted. Most, but not all savings, are tied to the staffing composition being slightly different than budgeted.

PRESENTING FINANCIAL RESULTS TO OTHERS

- Depending on your 'audience' emphasize relevant and pertinent information for them
- Don't shy away from negatives, address what your plans are, or what is needed, to fix them
- If you don't know the answer to a question you are asked, say you will investigate it further and get back to them

TAKE AWAYS

- Be transparent
- If there are gaps in your knowledge, work on your financial literacy
- Find the balance between too much and too little information
- If you are not getting what you need as a CEO/GM find out what changes are needed and make those changes
